

TEST TENDER / NIT DOCUMENT

Document ID: TEST-TENDER-2026-001

Issuing Authority: National Digital Infrastructure Procurement Division

Procurement Title: Supply, Installation and Support of Enterprise Cloud and Data-Centre Infrastructure

Issue Date: 15 August 2026

Purpose and Scope

The procuring authority invites bids from eligible companies for supply, installation, configuration, commissioning and support of enterprise server, storage, networking and cloud infrastructure for a large-scale government data-centre environment.

A declaration or checklist entry alone is not sufficient evidence unless the underlying document is attached and verifiable.

Mandatory Eligibility Requirements

Req. ID	Requirement	Mandatory evidence expected
R-01	Average annual turnover of at least INR 2,00,00,000 during the last three completed financial years.	Audited financial statements or CA-certified turnover statements for FY 2023-24, FY 2024-25 and FY 2025-26.
R-02	At least 5 years of relevant experience in enterprise server, cloud or data-centre infrastructure.	Work orders, completion certificates, client references or equivalent verifiable project records.
R-03	Experience in large-scale cloud/data-centre environments.	At least one verifiable project record identifying scale, client, scope and completion status.
R-04	Valid GST registration.	GST certificate or verifiable GST registration record.
R-05	Valid PAN.	PAN card/certificate or verifiable PAN record.
R-06	Audited financial statements for the required financial years.	Actual audited statements; summary declarations are insufficient.
R-07	OEM/manufacture authorization for the proposed equipment.	Signed OEM authorization letter identifying bidder, OEM, product scope and tender reference.
R-08	Company registration/incorporation documents.	Certificate of incorporation/registration.
R-09	Signed technical compliance statement.	Signed technical compliance statement against the tender specifications.
R-10	All mandatory supporting documents must be attached and readable.	Actual files, not merely a declaration that they are available.

Evaluation Rules

- Calculate the arithmetic average using all three annual turnover values; do not use a single-year value as the three-year average.
- Claims in a bidder declaration must be marked declared/unverified unless the relevant supporting file is present.
- Missing, unreadable or unverifiable mandatory evidence must be marked **DETAILS_NOT_FOUND** or **MANUAL_REVIEW**, not automatically passed.
- QUALIFIED is allowed only when every mandatory requirement has verified supporting evidence.

5. An explicit mandatory failure means NOT_QUALIFIED. Missing or unresolved mandatory evidence means MANUAL_REVIEW.

This is a synthetic test tender for document extraction, evidence handling, missing-document detection, cross-verification, confidence scoring and decision logic.
